"The bass I heard bordered on the difficult to believe -- very fast, very tight, very deep, with more than enough output."

Soundstage

"Quite simply, 3000 Series leaves competitors in the dust. We don't think we've heard sound this good in a subwoofer below \$2,000!"

The Master Switch

"The kind of forceful, yet detailed bass that we would expect from more powerful and certainly more expensive subwoofers."

AVForums

"The same level of impact that I've heard at live concerts and it has helped me discover how much deep bass I was missing from everything."

Reference Home Theater

"Textbook definition of great home cinema bass; deep, clean and fast, and easily integrated with your speaker system. A peerless bass generator."

Home Cinema Choice

"Subterranean bass shook my room. Hit with such force that I could literally feel the impact in my chest—man I love bass! Highly Recommended!"

Sound & Vision

"Sounded utterly huge. It felt as if low frequencies were pervading every part of the room. Performance that majors on size, depth and purity."

Home Cinema Choice

"Pitch-perfect, room-pressurizing bass, rugged construction, and reliable smartphone app. New lows in reference subwoofer performance, indeed!"

Stereophile

"Ridiculously impressive -- very fast, very tight, and very deep, with enough output to fill my room. Difficult to believe such a small box was delivering such impressive bass."

Soundstage

"Brutal SPL capabilities, tight and precise sound, easy-to-use mobile app and flawless design make this a rare and elite audio product."
